Network Security Declaration

Center: Tampa CC - (046) - FL Company Name: _____
Show: _____ Booth / Room #: _____
Customer / Ref #: 2018 - 046 -

The Network Security Policy implemented for this Facility requires Customer(s) adherence to several necessary precautions in order for Smart City to maintain a healthy, viable network for all Customers. This declaration of compliance with the security requirements as noted herein is an acknowledgement of Smart City's filtering policies and must be completed, signed by an authorized Customer representative and mailed or faxed to Smart City prior to the requested network service(s) being activated for Customer's usage.

Network Security Policy:

Smart City requires that all devices directly or indirectly accessing Smart City's network(s) have the latest virus scan software, Windows® security updates, system patches, and any other technological precautions necessary to protect the Customer(s) and others from viruses, malicious programs, and other disruptive applications. Any device(s) which adversely impacts Smart City's network(s) may cause service interruptions to Customer(s) which can lead to disconnection of the Customer's equipment from the network(s), with or without prior notice at Smart City's sole discretion. The device(s) in question will remain disconnected until all issues are adequately resolved. All charges will apply and no refunds will be given. Additional charges may apply for trouble diagnosis and / or problem resolution.

Smart City has implemented filtering policies on all Internet routers. These filters block all inbound Internet Control Message Protocol (ICMP) -- Ping, Traceroute, etc. -- destined to any Smart City Network(s). Smart City understands that Ping and Traceroute are valuable troubleshooting tools; therefore Smart City's Policy does allow ICMP (Ping & Traceroute) packets sourced from any Smart City network(s).

Further, Smart City has implemented filters on the following TCP and UDP port numbers: UDP – 137, 138, 402, 1434 and TCP – 135, 139, 402, 445, 4444.

Customers requiring inbound or outbound access to any of the filtered ports, should contact a Smart City customer service representative in advance of the event with details of the specific requirements so that Smart City may consider the potential of a customized alternative.

Each Customer's business is important to Smart City and with advanced and timely notification of a Customer's needs we are confident that we can provide network services that perform as expected for all clients.

Please inform all show site personnel about the importance of Smart City's Network Security compliance issues

Services are activated after Smart City is in receipt of this signed declaration of compliance with our network security requirements

Overview

Smart City is the exclusive provider for wired and wireless services for the Facility and has in operation a comprehensive wireless 802.11 network. The actual maximum bandwidth available depends on how many users are accessing the network simultaneously at any given time dependent upon the type of service purchased. Router, Streaming Applications, VoIP, DHCP, NAT or Proxy Servers are not allowed with this connection. Smart City can engineer custom dedicated network(s) to achieve your company objectives. Please contact us at (888) 614-2637 to discuss your network design.

Custom Wireless Networks

If you require wireless 5 GHz access for application demonstrations, Smart City is able to build a custom 5 GHz wireless network in your booth. Please call Smart City at (888) 614-2637 for a custom wireless quote.

Internal Networks

Smart City is the exclusive provider of all voice, wired and wireless data services. Wireless Devices not authorized by Smart City are strictly prohibited. Smart City requires all Customers showcasing their wireless products to contact Smart City 21 days prior to the show move-in so that we may engineer a cohesive network operating without interference (all approvals will incur a Wireless Engineering Management Fee). Please provide Smart City with the make and model of your wireless router for network approval (wireless access points without adjustable power outputs cannot be authorized under any circumstances). Wireless devices need to be programmed on-site following Smart City guidelines.

Customer Acceptance

Wireless service is inherently vulnerable to interference from other devices that transmit similar radio frequency signals or that operate within the same frequency spectrum. Smart City does **NOT** recommend wireless service for mission critical services such as presentations or product demonstrations that can accept a wired connection. Per our Terms and Conditions listed on Smart City's Customer Contract, misuse of any wireless service may result in service interruption to yourself or other Customers and can lead to disconnection of the Customer's equipment. **No service refunds will be given.**

ALL WIRELESS ACCESS POINTS NOT AUTHORIZED BY SMART CITY ARE PROHIBITED.

I hereby attest that I understand the limitations and vulnerabilities of the wireless service provided by Smart City. I also understand that if I use this service for any reason including, but not limited to, demonstrating, showcasing or presenting my product(s), Smart City will not be responsible for possible interference that I may experience. Upon receipt of the completed Smart City Contract, Smart City Services will be activated / available for your use.
